Subject RE: Environmental data for Triangle Lake Study area

Hi Gary,
I'll let Sheila and/or Elizabeth answer your questions about their preferences for the data. In the meantime, I've scheduled an hour long appointment with EPA from 4-5. How many people will be coming to discuss the data, and do you think an hour is long enough?
Thanks,
Karen

Subject: Environmental data for Triangle Lake Study area

Karen,

We are interested in scheduling an appointment to submit environmental data.

We are still figuring out the best way to submit the data.

Our POCIS study will not be complete until after we receive the applicator spray records that are now due at the end of April and run our duplicate sample analysis. We are discussing whether to submit a preliminary report at the interview or wait until the final report is ready in May. We will submit the QA plan either way.

Do you have a preference to see preliminary POCIS data now or wait for the final report?

Air study data may be a few weeks away, but we can submit the QA plan and discuss the upcoming data.

Let's make an appointment now and our group will continue to work on the details of the data submission.

-Gary
